Over 130 years of Imaging Expertise

Established in 1879, ILFORD is one of the oldest photographic brands in the industry. With a history that spans over 135 years, ILFORD has been synonymous with professional quality from traditional analogue film and paper to providing inkjet paper for today's photo quality printers.

Today, ILFORD remains one of the leading brands of inkjet photo paper for the professional marketplace under the ILFORD GALERIE brand and more recently with the introduction of ILFORD Studio.

ILFORD has always been associated with product innovation and providing photographers with the tools to create professional images with depth, clarity, and impact. The introduction of ILFOCHROME System is no exception.

ILFORD is committed to offering photographers the best quality photographic products in the market.

The Re-Invention of Brilliance.

The new ILFOCHROME System for the digital age.

The System

ILFOCHROME offers photographers the ability to drive incremental revenue by adding a new service to their existing portfolio. The process to create the final ILFOCHROME print combines the technology from market leaders Sawgrass, Sefa and ILFORD.

DYE SUBLIMATION PAPER **ILFOTRANS**

ILFOTRANS offers exceptional quality when combined with the latest Sawgrass ink system.

HEAT PRESS **Rotex RMXEL manual press**

The Rotex RMXEL manual press is perfect for this application. The standard plate is 40 x 50 cm and offers the optimum distribution of both pressure as well as heat.

PANELS **ILFOCHROME Platinum and Plaque**

With ILFOCHROME panels photographers can guarantee superb clarity, depth of colour, detail and impact of their final print. It is scratch, abrasion and water resistant and therefore extremely durable.

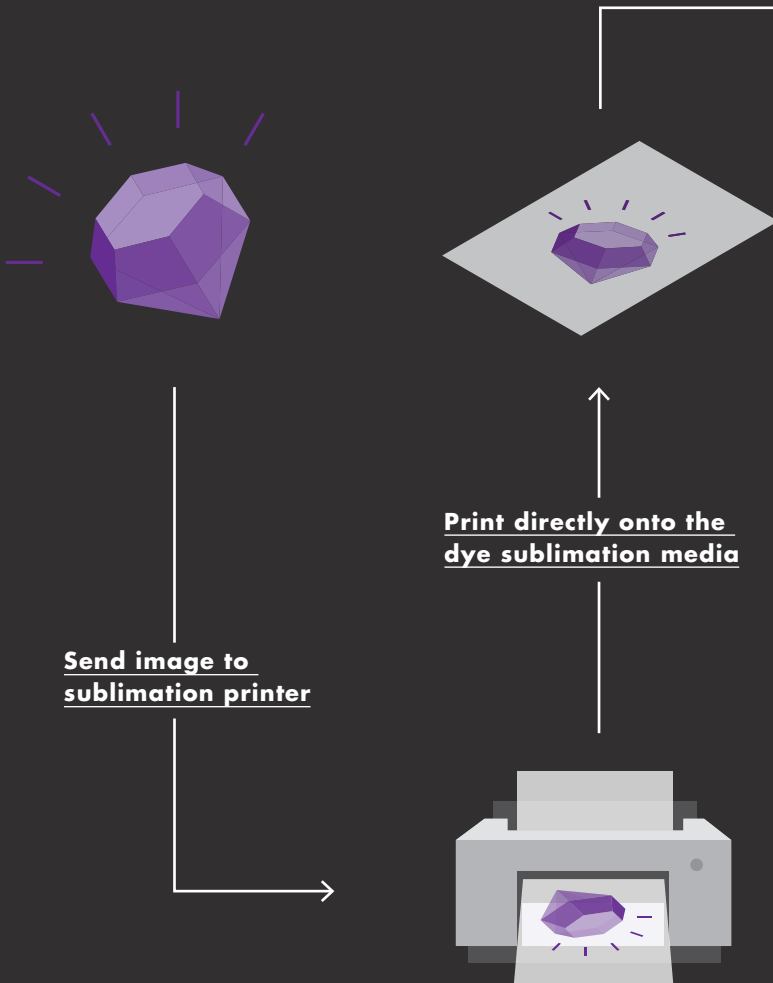

DYE SUBLIMATION PRINTER **Sawgrass Virtuoso Range**

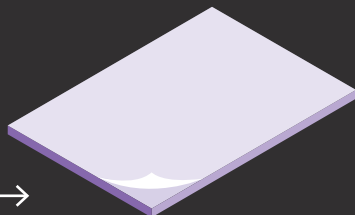

The Sawgrass Virtuoso Range includes both A4 and A3 desktop printers that offer exceptional high definition photo quality prints.

The Workflow

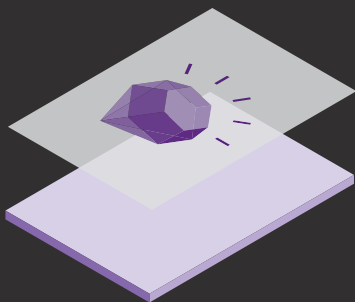

The process is very straightforward using a standard A4 or A3 dye sublimation printer along with a flat bed heat press.

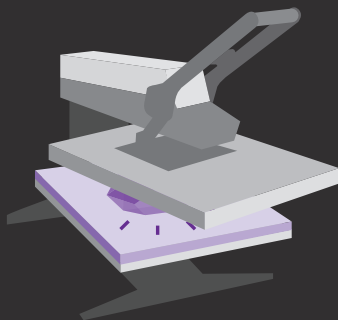

Remove protection foil
from Platinum/Plaque

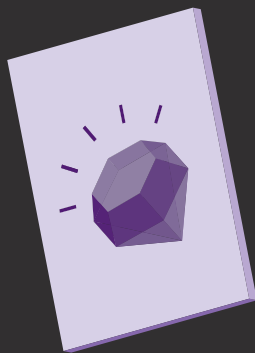

Place print faced
down on the panel
and secure with tape

Place substrate
on a hot press

Remove transfer
paper to reveal
the final image

ACCESSORIES

Heat resistant fabric sheet

Absorbs moisture during the heat process which will minimise blemishes.

Heat resistant gloves

Handle the metal plates directly from the heat press.
